

Jan 6, 1982-- Dear Senor Serrano: Thank you for your letter and for the pictures. Although I cannot completely understand all of the letter (nor do I read Spanish) I gather from it you are saying that experiments similar to the Philadelphia Experiment have been continued, being carried out in Spain? Are the photographs you enclosed connected with, or do they show results of the Experiment?

GRAY BARKER COLLECTION
CLARKSBURG-HARRISON PUBLIC LIBRARY
CLARKSBURG, WV 26301

Thank you for your interest about a copy of the Annotated Edition of Dr. M.K. Jessup's THE CASE FOR THE UFO, as mentioned in books by Charles Berlitz.

We regret that our edition is sold out, and that the high cost of reprinting this huge 8 1/2 x 11", 200-page volume prevents our supplying it at this time. Since Xeroxed copies cost \$100 each, we have temporarily withdrawn this book from our list.

However we have other books and publications which contain excerpts from the Annotated Edition, and which delve deeply into the Philadelphia Experiment and bring out new details. We are also releasing tapes and monographs. And these are available at far less cost than the complete volume. Here is a partial list of these items.

M.K. JESSUP AND THE ALLENDE LETTERS

By Riley H. Crabb

Contains Carlos Allende's startling letters to astronomer and astrophysist Dr. M. K. Jessup, in which he reveals how a ship became invisible and was teleported during a Naval experiment utilizing Einstein's Unified Field Theory. It also reproduces sample pages from the Annotated book and discusses Jessup's untimely death. \$7.95

THE JESSUP DIMENSION

By Anna Lykins Genzlinger

Startling new book based on a three-year investigation into Dr. Jessup's alleged suicide after it was learned that he "knew too much" about the Philadelphia Experiment. A detective believed the suicide was "too elaborate," there was no autopsy, and there was evidence of "mind control." Contains "translations" of the Allende letters in lay language and examples of contents of the annotations. Truly amazing in it's new revelations!. A startling volume with an Introduction by Gray Barker. \$12.95

THE BIEFELD-BROWN EFFECT

By Dr. Mason Rose

According to writers Moore and Berlitz, Dr. Townsend Brown was deeply involved in the Philadelphia Experiment, but could not talk about it due to security. Brown was known to be experimenting with anti-gravity fields. Now Brown's work in anti-gravity has come to light in a monograph by Dr. Mason Rose, titled "A SIMPLIFIED EXPLANATION OF THE BIEFELD-BROWN EFFECT TO THE SOLUTION OF THE PROBLEMS OF SPACE NAVIGATION." This remarkable paper contains actual diagrams of devices invented by Brown to explain the propulsion of UFOs, and was unearthed from secret NICAP files by a member of the Board of Governors and leaked. An exact Xerographic copy bound in plastic spiral, and written in terms many laymen can understand, or employ in actually reproducing the experiments. \$6.95
